

SAVINGS IN SIGHT

Vision Louisiana is designed to help you save money on those vision services not covered by health insurance.

The focus of Vision Louisiana is prevention and wellness care of your eyes. Over six million people develop eye disorders in this country each year. Many of these disorders could have been detected and treated if only a routine eye examination had been performed. Detection and prevention are the keys for a lifetime of good vision. With Vision Louisiana, access to regular vision exams is convenient and affordable.

Remember, you pay absolutely nothing for Vision Louisiana - it's FREE! There are no monthly payroll deductions and no membership card fees. Savings are available on services and purchases such as routine eye examinations for prescription lenses, LASIK laser vision correction, prescription eyewear, designer frames, sunglasses and contact lenses. There is no limit on the number of times you use the discounts each year. All members of your immediate family can receive these benefits.

Vision Louisiana providers are conveniently located throughout Southwest Louisiana to provide you with quality services and products at very affordable discounted prices.

Your current Vision Louisiana membership card, list of provided benefits and provider directory are included in this brochure. Feel free to contact the Vision Louisiana office with questions at (337) 479-0056.

Take advantage of your Vision Louisiana benefits to ensure that you and your family will have a lifetime of good vision.

YOUR VISION BENEFIT PLAN

Always take your Vision Louisiana and health insurance cards when seeing your eye care provider.

VISION EXAM RECOMMENDATIONS

Many people want to know how often they should have their eyes examined. The answer depends on your age, medical background and risk factors for disease.

In general, eye doctors recommend the following exam schedules:

CHILDREN

- Newborn to 3 months
- 6 months to 1 year
- 3 years (approximately)
- 5 years (approximately)

ADULTS

- Once between age 20 and 39
- Age 40-64, every two to four years
- Age 65 and older, every one to two years

Routine eye exams can help detect medical eye problems. In addition, some factors may put you at increased risk for eye disease. If any of these factors applies to you, check with a qualified eye specialist to see how often you should have a medical eye exam:

- Developmental delay
- Premature birth
- Personal or family history of eye disease
- African-American heritage (African-Americans are at increased risk for glaucoma)
- Previous serious eye injury
- Use of certain medications (check with your Eye M.D.)
- Some diseases that affect the whole body (such as diabetes)

Medical eye exams are covered by medical insurance, not Vision Louisiana.

Take good care of your eyes - because there's so much more in life to see!
